

Lynda's Keynotes & Breakouts Will Strengthen Your Conferences!

"Lynda's ability to make the topic come alive is perhaps as important as the subject matter itself. If the audience is not paying attention, they leave with nothing. Lynda can keep an audience riveted, even after several days. She is also very encouraging as a trainer, and an equally good listener."

- Alex D'Anci, ABB Corporate Research, Finland

"Don't stop doing your good work. It was by far the most concise, thought out and useful presentation I saw (Convergence 98)."

- Jean Eliceche
Assistant Training Officer, Fresno Public Utilities

"I thoroughly enjoyed your presentation at the convention in Los Angeles. By the end of the day, you were one of the most talked about presenters. We are currently budgeting for 98 and will need information on your Creative Thinking off-sites."

- Cathy A. Simms
PIMCO

"The training I received from Lynda was wonderful. I now use the Six Hats technique to manage meetings, with far more efficient use of everyone's time, and achieve significantly better results. This training is long-lasting and practical. It also works in my personal thinking, so much so that I am a different person."

- Bob Neary
Chief Administrative Information Officer, Caltech

"You are one of the best instructors I've ever experienced! You have changed my thinking - and so - my life!"

- Julie Goss Weir
- Performance Consultant, The California Department of Consumer Affairs

"In the coming age of the knowledge worker, Lynda is spreading a valuable message. Her presentation can serve to stimulate what may be the most powerful energy in an organization - creativity. As an attendee of three of Lynda's workshops I have been delighted by her enthusiasm and insight. I left each workshop with a significant addition to my 'thinking roadmap.'"

- Bill Bellows, Project Manager
Rocketdyne Division, Boeing North America
